SUMMARY:

Aspiring Android developer skilled in Kotlin, Java, and Jetpack Compose. Experienced with MVVM, Room, Retrofit, and Dagger Hilt, with internship experience in full-stack development and a focus on performance and modern UI.

SKILLS:

- **Java**
- **Kotlin**
- **Android Jetpack**
- **Jetpack Compose**
- **MySQL**

- **GitHub**
- **Android SDK**
- **Retrofit**
- **HTML5**
- **CSS**

WORK EXPERIENCE:

Full-Stack Web Developer Intern
- DevMinds Technologies, Bengaluru – Oct 2023 – Dec 2023
- Designed and implemented a responsive UI using Bootstrap, ensuring smooth user experience across varied screen sizes.
- Engineered backend services with PHP, enabling dynamic content delivery and smooth user interactions.
- Optimized MySQL queries, reducing response time by 10% and improving data retrieval efficiency.

PROJECTS:

Contacts App (Android, MVVM, Room, Dagger Hilt)
- Developed an Android app with **MVVM architecture**, reducing code redundancy and improving maintainability.
- Integrated **Room Database**, enabling offline data persistence and faster queries.
- Implemented Dagger Hilt, improving lifecycle management and cutting boilerplate code by 15%.
- Leveraged **LiveData + ViewModel** to deliver **real-time UI updates**, enhancing user experience with lifecycle-aware components.

To-Do App(Android, MVVM, Room):
- Created UI with Jetpack Compose for a modern, declarative, and reactive experience.
- Utilized **Room Database** for task persistence, ensuring data integrity and **offline accessibility**.
- Architected app with **MVVM pattern**, achieving efficient state management and reducing bugs by **15%** during testing.
  Delivered a fully functional task manager (CRUD + filters), tested by **10+ users** for usability and performance feedback.

EDUCATION:

B.E. in Information Science & Engineering - Nov 2021 - July 2025
Vivekananda Institute of Technology, Belgaum University, Bengaluru
